BBI

WHEELCHAIR LIFT FOR VEHICLES

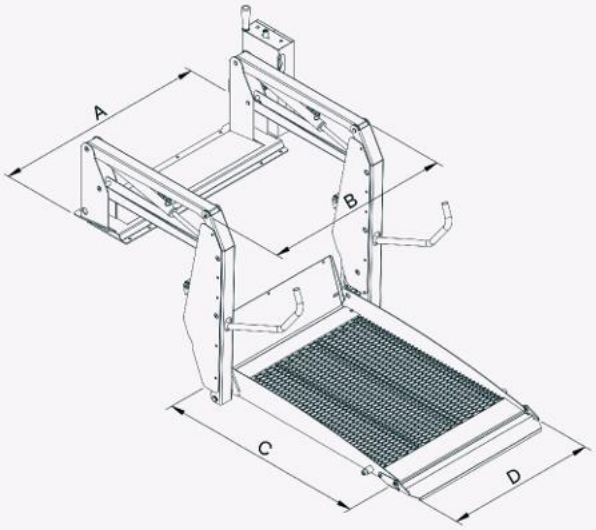

QUALITY **MADE IN ITALY**

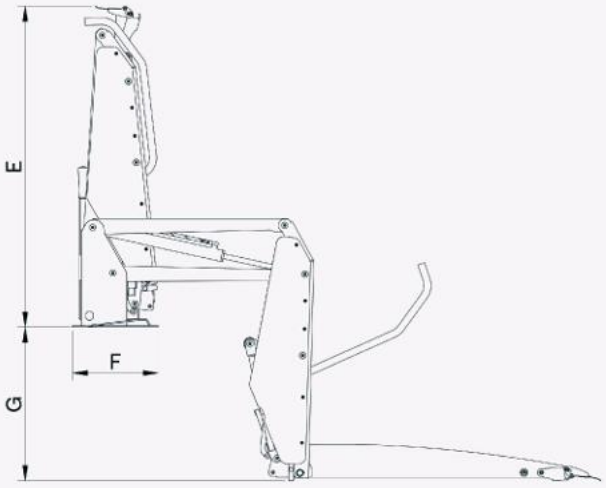

BBI | WHEELCHAIR LIFT FOR VEHICLES

The BBI models are fully automatic dual-arm lifts featuring a fixed non-slip platform. The lift is operated by means of a practical hand-held control pendant with coiled cable. Their simple and reliable electro-hydraulic operation completely eliminates the difficulties encountered by wheelchair users when entering and exiting adapted vehicles. Available in different sizes, this model is easy to operate, safe and highly stable. Thanks to the various platform dimensions, the lift can be installed on a wide range of vehicles. All lifts are equipped with a manual emergency pump, allowing operation in the event of a system malfunction or power failure. All lifts manufactured by MARIANI S.r.l. comply with current European Union regulations and meet the requirements for Electromagnetic Compatibility (EMC).

DIMENSIONS AND VARIANTS BBI

MOD. BBI

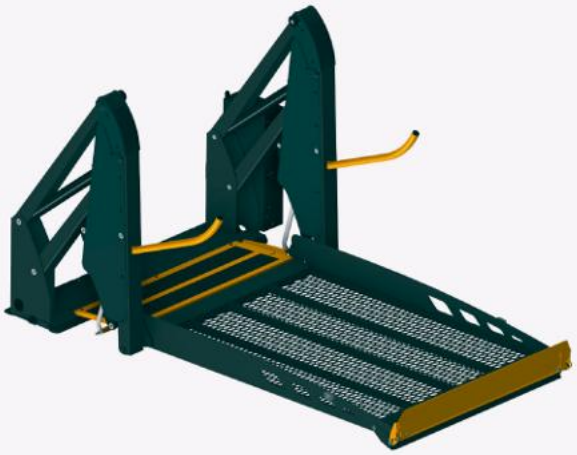

MODELS	DIMENSIONS mm							WEIGHT	SWL
	A	B	C	D	E	F	G		
BBI 115.80	1170	1040	1150	800	1270	340	1000	125 kg	360 kg
